- 2. Title: Planning for Sustainable Development: A Strategic Planning Statement for Northern Ireland Consultation Draft.** Department of the Environment. (2014).

**Description:** The purpose of the planning system is to secure the orderly and consistent development of land with the objective of furthering sustainable development and improving well-being. This means the planning system should positively and proactively facilitate development that contributes to a more economically, socially and environmentally sustainable Northern Ireland. Planning authorities should therefore simultaneously pursue economic, and social priorities alongside the careful management of our built and natural environments for the overall benefit of both current and future generations.
