

Climate Change Concepts, Science, and Impacts - Background paper

I. Title: **Climate Change and Nutrition in Africa with focus on Sub-Saharan**

Africa. Tirado, M.C., Crahay, P., Hunnes, D., Cohen, M., Denton, F., & Lartey, A. (2011).

Description: This background paper illustrates that while there has been some research on the impacts of climate change on food security and health in Africa, there is a lack of research on the impacts climate change on under nutrition and nutrition security, as well as on the adaptation options for nutrition security in Africa.
