

# Climate Change Concepts, Science, and Impacts - Key sheet

I. **Title: The Impact of Climate Change on the health of the poor.** DFID. (2014).

**Description:** This key sheet looks at the impact of climate change on the health of the poor. It aims to guide the reader through the key issues of poverty and health, impact of the current climate on health and impact of climate change on health. It also advises on the implications of climate change for the health sector.
