

Mainstreaming climate change - Institutional report

- I. **Title: Public Climate Finance: A Survey of systems to Monitor and Evaluate Climate Finance Effectiveness. *Climate Policy Initiative*.** Buchner, B., Falconer, A., Trabacchi, C., & Wilkinson, J. (2012).

Description: This paper examines the M&E systems applied by a selection of eight intermediaries five multilateral and three bilateral financial institutions and dedicated climate funds to monitor and evaluate climate finance spending and measure the effectiveness of interventions. Our hope is that intermediaries, government institutions and other organizations developing systems to M&E the effectiveness of climate financing, can benefit from the experience of the institutions included in this report.
