

# Mainstreaming Climate Change - Webinars

## I. Title: Enhancing National Security through Conservation partnerships.

**Security and Sustainability Forum.** Rubin, R. R., Regni, J. F., Payne, G. E., Graham, J., & Friday, P. (2016, May 5).

**Description:** This webinar focused on implementing conservation partnering programs between the military services and public and private conservation stakeholders, to enhance military readiness through habitat protection. Learn from military officials and environmental facilitation experts from Marstel-Day how shared resources can improve quality of life, reduce costs and improve sustainability.
