

Weather and Climate - Online blog

1. **Title: National Oceanic and Atmospheric Administration.** (2016, February 24).

A shared model for implementation by science Center [Web log post].

Description: ASTC and The Wild Center have teamed up to share a successful program format designed to target your region's high school and college students. This effort is based on a successful model developed by The Wild Center in Tupper Lake, New York over the last six years and recently recognized by The White House Office of Science and Technology Policy as a highly effective model that educates and motivates this critical age group.
